Experience

Working Student – Enterprise Architecture Nov 2024 – Present
Eppendorf SE *Hamburg, Germany*

- Built an internal AI agent using Langdock, integrating MCP tools and custom skills to help employees retrieve application information from SAP LeanIX.
- Automated the migration of 95% of 425 GDPR processing records from SharePoint to SAP LeanIX using Python, reducing manual effort and improving compliance tracking.
- Automated SAP LeanIX data collection and maintenance using Python and GraphQL APIs across an application portfolio of 886 applications.
- Built a Python parser for SAP LeanIX permission management, automating previously manual configuration tasks.

Full Stack Developer – Consultant Jul 2023 – Sep 2024
AST LLC *Remote*

- Modernized the web portal's frontend by upgrading the legacy codebase to React 18+ and adopting functional components and Hooks.
- Developed a web-based wizard to automate complex project onboarding workflows, saving hundreds of hours of manual work.
- Implemented real-time Test Run publishing and locking, now used by 29+ team members to reduce support effort.

Full Stack Developer Jan 2023 – Jul 2023
D-WebBox *Mumbai, India*

- Led the frontend for the FOR ALL COMMUNITY application for Great Place To Work®, built entirely from scratch for Android and iOS platforms.
- Migrated GenWE applications' legacy peer-scoring logic from CoffeeScript to TypeScript and deployed it to production.
- Conducted code reviews and optimized multiple React Native applications to improve performance and code quality.

React Native Intern Jun 2022 – Jan 2023
D-WebBox *Remote*

- Enhanced iOS specific features and UX of FIKAA, an application built for investing in the stock market.
- Built the Amyraa cross-platform e-commerce application for Android and iOS using React Native.
- Resolved launch-critical bugs and refined UI behavior across production React Native applications to improve stability and user experience.

Frontend Development Intern Oct 2021 – Jun 2022
TravOkarma *Remote*

- Improved the performance of the User and Creator dashboard section build in React Native by optimising Network calls and refactoring UI code.
- Developed core user-facing features ahead of launch, then improved UI consistency and resolved bugs across iOS and Android based on post-launch user feedback.

Software Development Intern Oct 2020 – Oct 2021
Remassis *Remote*

- Developed a cross-platform online consultation app for iOS and Android using React Native, launching the Android version on Google Play.
- Built and deployed microservices using Node.js, GraphQL, and MySQL to support application functionality, including real-time video consultations using WebRTC.

Education

Technische Universität Hamburg Oct 2024 – Mar 2027
ICS – Secure and Dependable IT Systems *Hamburg, Germany*
Master of Science *Grade: 2.2*

Indian Institute of Information Technology Aug 2019 – May 2023
Electronics and Communication Engineering *Bhopal, India*
Bachelor of Technology *Grade: 1.6*

Open Source

Ancient Beast: Contributed to an open-source turn-based strategy game by implementing core gameplay features and UI enhancements using TypeScript and Less/CSS.

Twenty CRM: Contributed frontend enhancements to an open-source CRM built with NestJS, React, and TypeScript, including composite field support in the Excel Import Wizard.

Projects

Code Churn in Vulnerability and Bug Commits: An Empirical Analysis *(Projektarbeit, Institute of Software Security, TUHH)*: Built a custom code churn extraction pipeline to analyze 126,000+ security and bug-fix commits across Java and C/C++ projects using four curated datasets.

School ERP for JMRD, Datia: Designed and built a full-stack School ERP system with attendance, administration, notice board, and doubt management features using React Native, Node.js, and MongoDB.

MovieFinder: iOS app built in Swift and SwiftUI that retrieves movie information from the OMDb API and features an offline watchlist using CoreData.

Technical Skills

Languages: Java, Python, TypeScript, JavaScript, Swift

Frameworks: Spring Boot, React, React Native, Node.js, SwiftUI

Databases & APIs: MySQL, MongoDB, REST APIs, GraphQL

Cloud & Enterprise: AWS, Docker, LeanIX, SAP

AI & Automation: MCP, LLM Applications, AI Agents, RAG

Developer Tools: Git, GitHub Actions, XCode

Achievements/Awards

Rising Star Award at AST LLC: Awarded for valuable contributions to Automation Cloud Tester (ACT), Web Portal and Support Tools development

MMVY Scholarship: Received full tuition fee from state Government for the entire bachelors program

IEEE Hacksagon: Finalist at Hacksagon conducted by IEEE at IIIT Gwalior

Languages

German: B2

English: IELTS 8.5/9 (CEFR C2)

Hindi: Native
